THE PROVISIONAL ESTIMATES.

INCREASED \$473,000 BY THE ALDERMEN. SOME LIVELY EPISODES IN THE BOARD-ONE ITEM

OF \$10,000 STRICKEN OUT. OF \$10,000 STRICKEN OUT.

Th Board of Aldermen met yesterday for the purpose of considering the provisional estimates for the coming year. Among those present were Controller Grant, President Asten of the Tax Department, Fire Commissioners Van Cott and Purroy, and President Wales of the Park Department. The Board went into Committee of the Whole and Mr. Fitzpatrick was made chairman. The provisional estimates were taken up in their order. The total is \$35,253,376 89. The sums allowed by the Board of Estimate and Apportionment amount to \$33,373,157 39, and this amount, less \$2,000,000 produced by the General Fund, has to be raised by taxation.

produced by the General Fund, has to be raised by taxation.

When the Department of Finance appropriation was reached, Mr. Wells wished to know why the item of salaries of clerks should have been increased from \$132,000 to \$137,760. Controller Grant said that the proper administration of the department required a larger force. Some of the salaries now paid were too low. Mr. O'Connor said that the trouble in the department was too great inequality in the salaries. "It is the system of robbing Peter to pay Paul," he declared. "I call the Alderman to order," exclaimed Chairman Fitzpatrick. "His language is unparliamentary."

"I say it is not, sir," said Mr. O'Connor, hotly. "The phrase is a correct one, and exemplifies my meaning."

"I say it is not, sir," said Mr. O'Connor, hotly.

"The phrase is a correct one, and exemplifies my meaning."

"You are using slang, sir," said Mr. Fitzpatrick.

"We cannot allow such language in this Board."

"I have not used slang," retorted Mr. O'Connor.

"I made use of an old and perfectly proper Saxon phrase, and I will not submit to being sat upon by you, sir, for uttering it in this place."

Mr. Cochrane presented a resolution to the effect that as the provisional estimates call for \$8,105,334 52 estimated total interest on the city bonds issued and \$380,000 on bonds which may be issued, these two sums be appropriated separately. He declared that had this been done heretofore there could have been no such defalcation as was shown in the case of Carrol!, continuing through a series of years. The resolution was adopted.

When the appropriation for the Department of Public Parks was taken up, President Wales explained at length the items asked for removing the zoological collection. Mr. Wells asked for an explanation concerning the appropriation for the maintenance and government of public parks, places, streets, roads, etc., in the Twenty-third and Twenty-fourth Wards. Chairman Fitzpatrick declared that the time of the Board should not be taken up by members in asking ridiculous questions. Mr. Wells said that he had a right to ask for information, and declared that the chairman was exceeding his anthority in characterizing as ridiculous the questions propounded by him, and that he would not be silenced.

This episode was barely over when Mr. Fitzpatrick took Mr. O'Connor sharply to task for conversing with Corporation Attorney Royd when Commissioner Wales was explaining the Park Department estimates.

Mr. O'Connor—I was answering the questions of the Corporation Attorney relative to his salary. The chairman had better attend to his own business and let that of

partment estimates.

Mr. O'Connor—I was answering "the questions of the Corporation Attorney relative to his salary. The chairman had better attend to his own business and let that of gentlemen alone. I demand that respect which I accord to others on this floor.

President Reilly—The Alderman does not treat the chairman with the respect which is his due. The chairman should call the Sergeant-at-Arms to preserve order. Mr. Fitzpatrick—Alderman O'Connor does not accord that respect to the chairman which is due from every member of the Board.

Mr. O'Connor—I accord the same respect as is shown me. Soon afterward Mr. Fitzpatrick relinquished the

chair to Mr. Grant.

Mr. Wells asked for information concerning certain proposed improvements in the annexed district. Chairman Grant (sharply)—You cannot say anything anless you speak to the question, and you must come to

order.

Mr. Wells—I am speaking to the question, and the chairman has no right to interrupt me. As chairman he has no right to discuss questions. I will not be prevented from speaking on questions at issue.

This declaration had the effect of quieting the chairman for a time.

The Board disallowed an item of \$10,000 for procuring and presenting evidence relative to frauds on the City and County of New-York prior to January 1, 1872.

Corporation Counsell Andrews sent a letter asking for an appropriation of \$1,000 to defray the expenses of further compiling and revising the Consolidation act, the work to be done by George Bliss. Mr. Cochrane opposed it. He declared that the work as done was inefficient and incompetent. He moved that the amount asked for be disallowed. This was agreed to.

the work as done was inefficient and incompetent. He moved that the amount asked for be disallowed. This was agreed to.

When the Department of Public Works was reached Mr. Seaman reoved that the item for the repairs and renewals of pavements and regrading be increased from \$192.500 to \$291,000. This was agreed to after considerable discussion. The item for repaiving the streets and avenues was increased from \$342,000 to \$500,000. Mr. Fitzpatrick moved that \$184,000 be added to the items of the Department of Public Works for the completion of Washington Market. This was ordered. The item of salaries under the head of repaiving streets and avenues was increased from \$8,000 to \$16,000; salaries under the head of severage system were increased from \$130,000 to \$22,000; the item of \$114,000 for repairing and cleaning sewers was increased to \$140,000; and salaries under the head of repairs and renewal of pavements and grading were increased from \$7,000 to \$9,000.

When the Department of Education estimates were taken up Mr. O'Connor moved that the item of \$135,000 for the College of the City of New-York be stricken out on the ground that it was no part of the city's business to furnish a higher education to its youth. The motion was lost. He then moved that the estimates of the Board of Education be reduced from \$4,000,000 to \$3,334,950. This also was lost.

The Board then adjourned, having increased the

Was lost.

The Board then adjourned, having increased the estimates \$483,000, and stricken out one item of \$10,000, making the net increase \$473,000. The provisional estimates now go to the Board of Estimate and Apportionment for final revision.

DIPHTHERIA IN A PUBLIC SCHOOL. SEVERAL DEATHS REPORTED-ORDERING THE BUILDING TO BE CLOSED.

President Stephen A. Walker, of the Board of Education, issued an order yesterday to the school trustees of the Twenty-fourth Ward instrucing them to close immediately "Grammar School No. 63 at Third-ave, and One-hundred-and-seventy-secondst., in consequence of an outbreak of malignant diphtheria among the scholars. The attention of Mr. Walker was called to the matter by the parents of children attending the school, who said that hundreds of children were likely to die unless the school were closed. John H. Meyer, the principal, said that the first attack of diphtheria occurred in September, and that since then the disease had spread rapidly and there had been a number of deaths.

curred in September, and that since then the disease had spread rapidly and there had been a number of deaths.

John Haskins, of the primary class, residing in Central Morrisania, was the first attacked, but he recovered. He sat in the class beside Ernest Muller, a son of Henry Muller, the janitor of the school, who was seized with the disease and died in two weeks. Tobias Muller, his brother, was attacked on October 30, and died in two weeks, and Henry Muller, another brother, died on Wednesday. A son of Frederick Foly, one of the trustees of the school, Ida Foster, of Tremont, and Kattie Meyers, living with her parents near the Harlem Railroad station, Central Morrisania, have also died of diphtheria within a few days. Among the children reported in Tremont yesterday to be suffering from the disease, are Fanny Bracken, a daughter of Henry Bracken, Superintendent of Public Works; Mamie Steers, a daughter of Charles H. Steers, a civil engineer living at Madison-ave, and One-hundred-and-seventy-eighth-st., and children of Mrs. Conlin and Mrs. Phelps of Tremont.

On Wednesday a number of the parents held an indignation meeting and denounced the school officers for not giving notice of the disease and closing the school. Several of the parents said that the disease was due to the defective drainage of the school. An examination was made yesterday by David I. Stagg, superintendent of school buildings, Frederick Foly, a trustee, and John H. Meyer, the principal, and the drainage was found to be in good condition. The outbreak of diphtheria therefore must be attributed to some other cause.

DENYING HIS OWN STORY OF A SHOOTING. After the discovery of the cave on the mountain west of Chappaqua and the capture of its, occupant—the burglar, Joseph Phyle—August Errickson and John Walsh were sent to watch the cave. Errickson said next day that while he and Walsh were watching the cave a man approached and acted suspiciously. They called upon him to surrender and he drew a revolver. Errickson thereupon shot the suspected robber. Errickson and Walsh afterward buried the body near the spot.

The story leaked out and Errickson was arrested and taken to the county jail at White Plains. He then denied that he had shot anybody and declared that his former statement was false. A warrant for the arrest of Walsh has been issued in order to hear his story, and a search will be made for the robber's body.

THE RAHWAY BANK SUSPENSION.

THE RAHWAY BANK SUSPENSION.

The excitement which was manifest in Rahway, N. J., on Thursday, owing to the suspension of the National Bank of that town, had subsided last evening to a few narmars on the part of the depositors. The directors had made a sworn statement of the condition of the bank's affairs to submit to Bank Examiner Adams this morning, who will begin at once an investigation of the matter. Mayor High was in this city, yesterday in consultation with the officials of the Importers and Traders' Bank. The opinion of the bank's affairs in liquidation, and then take steps to incorporate a new bank under new anspices. Some of them are confident that the affairs of the bank will be placed in the hands of a receiver until its condition can be definitely determined, and a petition was made to the bathorities at Washington, by one of the largest between the supplier of the largest by the supplier of the largest

depositors, asking that a receiver should be appointed. The answer to the petition said that the matter was under consideration.

If the directors should decide to stop business, the loss to the stockholders will be light, as there is a paid-up capital of \$100,000, and a surplus in cash of \$22,000. The amount of the deposits is about \$140,000. Cashier Shotwell was confident last night that the bank would resume payment on Monday, and he ridiculed the idea that it would either go into a receiver's hands or stop business.

The bank had two correspondents in New-York, the Importers and Traders and the Metropolitan National Banks. It kept its principal account with the first-named bank. In reply to inquiries the cashier of the bank said: "All that I know about the matter is that the bank has failed and that it had an account with us." The cashier of the Metropolitan National Bank said that its account with the Rahway Bank was a small one, and that the balance to its credit would not pay a large dividend to its stockholders. He expressed the opinion that the affairs of the bank would be found to be in better condition than the mere fact of the failure would indicate.

A BRUTAL ASSAULT ON A SICK WOMAN.

Mrs. Henrietta Ehret came to this country about three months ago, from Germany, expecting her husband to follow her. She went to live with friends in East New-York and was admitted to the Luther Hospital in that village about the 1st of October, where she became a mother. Her condition becoming critical from puerperal fever, the hospital authorities made application to the Kings County Commissioners of Charities and Correction to have her received in the County Hospital on October S. Richard Curran, of No. 43 Columbia-place, Brooklyn, and Thomas Bowles, of Bayard-st., this city, was intrusted to remove her in a bed-wagon. It was after dark when they reached the County Hospital, and on the way, in a lonely country-road, the men committed a brutal assault upon the woman. When she reached the hospital she was unconscious, and afterward she appeared to be out of her mind. As she was a charge upon the State and not upon the county, in which she lived a year, she was afterward sent to the Ward's Island Hospital, where she recovered her reason and told the circumstances. Upon her affidavit the men were sought out, and when Curran was accused of the crime he confessed, but said that Bowles instigated it. Both were arraigned before Justice Gertum in East New-York yesterday and held for examination. A BRUTAL ASSAULT ON A SICK WOMAN.

BEATING A BOY ALMOST TO DEATH.

Nicholas Kohler, age seventeen, lives with his uncle upon a farm in the town of New Utrecht, L. I., not far from the Brooklyn city line. After the uncle had started early yesterday morning for this city with a market wagon, Carl, a German laborer, sprang upon the boy and bound him with a rope. He then brutally beat him over the head with an axe until he was unconscious and covered with an axe until he was unconscious and covered with an axe until he was unconscious and covered with an axe until he was unconscious and covered with blood, and left him for dead upon the floor. About 3 a. m. Mrs. Kohler was aroused by the groans of her nephew, and found him on the back stoop of the house with several gashes in his head and his clothes torn and stained with blood. He could not speak. He was put to bed and a doctor was called, but it was not until 10 o'clock that he recovered consciousness and could tell who had assaulted him. His condition was critical last evening and his recovery was regarded as doubtful. Justice Church took his ante-mortem statement. Young Kohler does not know why he was assailed. The man Carl, whose other name is not known, had been in this country only eleven months. No trace of him could be found yesterday, and it was thought that he had come to this city. As a disinfectant Platt's Chlorides is especially ecommended. Odorless, prompt, thorough and cheap. It is ust what every family needs. Try it.

As there is an international agreement abou the quality of Chinese tea and Frazilian coffee, so it is settled by all nations that the tobacco of the Golden Belt of North Carolina is par excellence the tobacco for the pipe or eigar-ette. In Blackwell's Durham Long Cut it is seen at its beat. That brand preserves this celebrated tobacco in its natural purity, all its dayors and fragrances unimpaired.

"BUCHU-PAIBA."—Quick, complete cure, all nnoying kidney and urinary diseases. \$1.

By using Platt's Chlorides freely much sick-ess, sorrow and trouble may be prevented. It is the best sinfectant, and has no objectionable features. Careful housekeepers use Platt's Chlorides

hus, by thoroughly disinfecting every suspicious place freedom from disease. Do you use it! Druggists everywhere sell Platt's Chlorides, and over 5,000 physicians testify that it is the best disinfec-ant known. Try it, you will like it.

Derangement of the liver, with constipation, signe the complexion, induce pimples, sallow akin, etc. Re-nove the cause by using Carter's Little Liver Pills. One a Each bottle of Platt's Chlorides prepares over

two gallons of disinfecting fluid strong enough for hourpeass. Price, 50 cents. It will pay you to use it. For all the purposes of household disinfec-

tion, for rinsing the waste pipes, purifying the sinks, &c., use always Piatt's Chlorides. Druggists sell it. Get a bottle of Platt's Chlorides from your druggist to-day, and thoroughly parify the water-closets, drains, sinks, cesspools and cellars. It will pay.

Having used Platt's Chlorides to disinfect the pipes and closets of your own house, recommend your neigh-bor to do the same.

If your Sewing Machine runs hard, or is out of order, it will pay you to investigate the Willcox & Gibbs AUTOMATIC, and learn how easily and beautifully it will do your work. If every family used Platt's Chlorides the newers would be so thoroughly purified that scarlet fever, diphtheria, etc., would be maknown.

It is entirely vegetable, being composed of the extracts of roots which grow in this section of Georgia. I am familiar with its history from the time the formula was obtained from the Iudians. It is a certain and safe remedy for all kinds of blood poison and skin humor, and there has never been a failure to cure. THE SUNDAY TRIBUNE. 3 CENTS.

A GREAT PAPER ON NOVEMBER 25

Rogers, Peet & Co., FEATURES OF LIVELY INTER

THE SUNDAY TRIBUNE is by all odds the best paper. It is strong, sparkling, full of variety and entertaining. It is a remarkable bargain at 3 cents a copy. Its sales increase weekly.

The paper of November 25 will contain several features, each one of which will be worth for more than the cent of the paper.

The paper of November 25 will contain several features, each one of which will be worth far more than the cost of the paper.

One of the best will be concerning the New-York of One Hundred Years Ago, with all the news concerning the great Celebration of Monday.

Lawyers, married people, and those thinking of marriage, will be interested in a remarkable statement by Justice Barrett, of the Supreme Court, on Marriage and Divorce. His views about early marriages, and the duty of the Legislature concerning divorce, are more novel and fadical than those of any of the other eminent judges and lawyers whose opinions The Tribune has published. They are certain to provoke warm discussion.

The people of Brooklyn, teachers especially, will enjoy a special article on the Schools of that city, their needs and defects, and the views of Mayor Low, President Bergen, Superintendent Patterson and others.

The edition of November 25 will also contain a carefully prepared sketch of the life and labors of the Rev. Dr. John R. Day, pastor of St. Paul's Methodist Episcopal Church, New-York, The fascinating Romance of the Sea by W. Clark Russell continued. The previous instalments supplied gratis at The Tribune Office.
